### GAMBLERS HOPEFUL.

EXPECT LEEDY TO NAME THEIR MEN FOR POLICE COMMISSIONERS.

### ARE READY TO OPEN IF HE DOES

SOME OF THE TROUBLES OF PRO-BATE JUDGE HENRY M. HERR.

Rev. W. E. Johnson Says He Has Been Misrepresented - Directors and Officers of Two Banks-Suit for Divorce-Two Damnge Cases.

Now that Governor Leedy has been inrugurated, the pie hunters in this city are showing greater activity than at any prelous time since the election.

The principal contest is over the appoint nent of a police board and chief of police. While the chief of police is appointed by he board, yet this time it will be only a matter of form, as it is generally conceded that the governor will name the chief and the board will not dare ignore his suggestion. Among the candidates for poons on the new board the three most favorably mentioned are J. C. Horton, for the Republican member; J. W. Jenkins, Democratic member, and Charles McCambridge, Populist. While these men are considered the favorites, yet some of the wise politicians, who are very close to Governor Leedy, say that the commissioners to be or Leedy, say that the commissioners to be have not yet been announced. This is looked upon as being idle talk, as the name of every eligible rusionist in this county has been mentioned.

The principal contention is caused by the gambling element, which expects to secure the appointment of a police board that will allow them to again thrive in the metropolis.

that will allow them to again three in
the metropolis.

It is said that the gamblers are fighting
against the appointment of Jenkins, Horton and McCambridge because of their
fallure to promise protection to them. The
appointment of police commissioners
means a contest of influence between the
better class of citizens and the gambling
clement, and with which crowd the goverement, and with which crowd the gov-ernor will take sides is a question yet to be determined. The gamblers seem to have great confidence of winning, as some of them have gone so far as to fit up quar-ters, and are now ready to throw the doors open the minute the new commissioners en the minute the new commissioners e named, providing they name the board, me of the leading fusionists, who are ted in the result of Governor a administration, are using every a means to block the game of the

Meanwhile, there is trouble in other directions and much internal strife. Probate Judge Herr is having no end of trouble with his political allies. When he announced the appointment of Monnahan, a free silver Republican, as his deputy, a great howl was set up by the Democrats and Populists. They claimed that the selection of a Republican for this position was evidence that their party did not have competent persons to fill the place. Mr. Monnahan served several terms as probate jude, as a Republican, and when Mr. Herr appointed him as his deputy it was done on account of Mr. Monnahan's knowledge of the affairs of the office.

Mr.Herr let them howl and make their declarations of vengcance but he would not change the appointment. However, the fusionists have made him toe the line to some extent. When he took the office the walls therein were adorned with a handsome picture of Mekfinley and Hebart. Some of his Democratic friends took notice of this state of affairs. It was looked upon as a slap at Bryan to have such pictures in an office held by a fusionist and the judge was commanded to "haul them down." Rather than have any more trouble with his rabid followers, Judge Herr turned the pictures to the wall. eanwhile, there is trouble in other di-

### SENT HER A QUARTER.

With This Mrs. Cadman Was Expected to Buy Herself and Child New Dresses-Wants a Divorce. Theressa May Cadman brought suit in

Theressa May Cadman brought suit in the district court yesterday through her attorney. Police Judge Lattick, against Samuel A. Cadman, for divorce. The plaintiff alleges that the defendant has failed to provide her and their child with the necessaries of life. She alleges that one day last May she took her infant and went to spend the day with friends. When she returned she found the house vacated and her husband missing.

An investigation, so she alleges, developed the fact that during her absence the defendant had all the household furniture and other effects hauled away and sold them. He then took the proceeds of the sale and departed, leaving her and their child penniless, without clothing, food or shelter. She claims that she afterwards received a letter from her husband dated at St. Louis, in which he stated that he had secured good employment and inclosed her 25 cents to buy her and their baby new dresses.

It appears that the depot agent suspected them of being tramps, and in ejecting them from the station it is claimed he kicked them.

### INDEPENDENCE.

Considerable of a Decrease in the Assessed Valuation of Property in Several Ranges.

In Several Ranges.

The assessor's force in this city has completed a compilation of the assessed value of real and personal property for ranges 25 to 22. The recapitulation shows a masterial decrease in values amounting in the agreeate to \$25,789. The real estate valuation is shown to be \$7,497,135 and for the preceding year it amounted to \$7,519,409, making a reduction of \$22,325. The largest failing off occurs in the personal valuation. For the year 1896 the personal assessment for ranges 23 to 32 was \$2,216,225. For this year it is \$2,011,779, making a shrinkage of \$204,835. Should the assessed valuation for range 32 show a like shrinkage in values in proportion to the area covered and the wealth, it will materially affect the revenues of the county.

Intention Is to Make It One of the Best Societies of Its Kind in the United States-To Fill a Long Felt Want in This Community.

A number of gentlemen met in the club reom of the Coates House last night and organized the Western Historical Society of Kansas City. The design of the projectors is to make the society one of the best of its kind in the United States. It will have members and correspendents and collectors of historical data in every state and territory west of the Missouri river.

There were present at last night's meeting such well known citizens as Father Glennon, Harlow W. Baker, W. G. Mellier, W. B. Clarke, A. L. Carpenter, E. R. Weeks, George D. Fearey, Professor James M. Greenwood and a number of others equally well known. While they were there

The people of this city pay \$1.00,000 taxes every year and that should count for something."

Mayor J. M. Jones—"It looks as if the two factions of the Democratic party had got together and agreed upon a compromise. They seem to be of the opinion that an investigation would not do the party any good and they sacrifice the interests of the people to party expediency. The action of the degislature is only another reason why the people of this city should have control of their own police affairs. I do not see how any honest man can fear an investigation, nor do I see how men who are under the fire of serious charges can afford to have no official inquiry made."

Harlow W. Baker served as chairman of the meeting and W. G. Mellier as secretary. Messers, Gardiner Lathrop, J. C. Merideth and Judge J. Brumback were appointed as a committee to incorporate the society.

The house held two sessions to-day. The

one in the morning was quiet and prosy, whereas in the afternoon the air fairly bristled with war talk. Poor old Spain was whipped, Cuba was almost freed and was whipped. Cuba was almost freed and only the report of a committee stands between the island remaining the property of her present owner and being tacked onto the United States. In addition. William Jennings Bryan was invited to address the assembly on bimetallism, Grover Cleveland's name was roundly hissed. Bourke Cockran was called a renegade, Major Bittinger was refused the privilege of inviting Senator Thurston to speak with Bryan, Mary Ellen Lease's name was laughed at to have Tom Watson remain at home, although Member Aldrege asked that he also be invited to speak. All these names were mentioned in amendments as proper persons to talk with Bryan when the resolution to have the Nebraskin speak was introduced.

tion to have the Neurassan speak was al-troduced.

The resolution to recognize the inde-pendence of Cuba was sent to the com-mittee ob federal relations. Member Rebo, in his exciting talk for freedom, doubled himself into two or three knots and finally in a burst of cloquence made a gesture causing him to almost lose his balance and fall over his desk. In the laugh that followed, even Speaker Farris nearly ex-pressed merriment.

The funeral services of the late Margaret O'Rilley were held from St. Aloysius church yesterday morning at 9 o'clock, Rev. Father Kelly officiating. Burial was in Mount St. Mary's cemetery.
